

A devastating Cyclone has impacted our brothers and sisters in Mozambique. An estimated 20,000 families have lost their homes and approximately 100 chapels and parsonages were in the direct pathway of the storm. The Missouri Annual Conference is positioned to aid significantly in the response. Donations through mzinitiative.com will be used to repair and rebuild these church structures in addition to responding to the emergency needs of shelters and food as they are identified by colleagues and UM leadership on the ground in Mozambique.

We hope you join us in prayer and generosity. Thank you for your support.
